For over 50 years, we've been creating high-quality, expedition-style adventures for active travellers with a curious spirit. From our very first trek in the mountains of Nepal to pioneering remote routes across all seven continents, our journeys are built for those who want to truly explore – not just visit.

At the heart of what we do is a simple philosophy: take the paths less travelled.

This means travelling with care, supporting local communities, minimising our impact, and unlocking experiences that most travellers will never have.

If you're ready to go further and dig deeper, we invite you to join us on the Everest Family Trek - Private Comfort Camps, a journey that captures the essence of a unique adventure.

Local cash payments are becoming increasingly popular with many operators in the adventure travel industry. The policy seems to benefit the tour operators, more than the local economies or travellers, as it avoids local taxes and transfers the cost and risk of cash handling to travellers. In accordance with our Responsible Travel practices we have chosen a policy not to ask for such payments.

trip grading Moderate

On a moderate trek physical activity will generally not exceed eight hours in a day, and altitudes generally not exceeding 5,500 metres. On a moderate adventure the physical activity is sustained and travelers should be comfortable with occasional rough terrain. At any stage of a moderate trek you can expect long steep climbs and descents and a wide range of weather conditions. An example of an average day on moderate trek could include several ascents and descents of 500 metres or more, level ground is rare in the mountains. To prepare for a moderate trek you should begin training at least four to five months before your departure. As a guideline, an hour of aerobic exercise three to four times per week would be considered a minimum requirement. The best preparation is bushwalking involving relatively steep ascents and descents. If you can manage a couple of valley floor to ridgeline ascents per bushwalk, albeit with stops along the way, you will cope with a moderately graded trek. Speed is not important, stamina, confidence and continuity are.

adventure travel

By its very nature adventure travel involves an element of the unexpected. In remote and developing countries do not expect standards you are used to at home. Remote areas are sometimes unpredictable and itineraries may be altered. To get the most out of your adventure it is important that you are flexible, positive and eager to take on all the challenges that arise. If you are uncertain about your suitability for this trip we recommend that you speak with your consultant or travel agent.

country information

Nepal is known for its beautiful and dramatic scenery. Avid walkers and non-walkers alike are drawn to its mountains and foothills to view the Himalaya and the world's highest peaks. Many also discover the beauty of the forests and the enjoyment of time spent as a self-contained expedition, far from the rush of the modern world and in the delightful company of the trek crew as they tend to our needs and ensure that we are comfortable and able to enjoy the trek to the fullest. They are physically strong, sharp-witted and have an incredibly positive attitude towards a life that we would consider extremely tough. There is something about a trek in the Himalaya that draws you back time and time again. For keen walkers it is a paradise and even avowed non-walkers find that one foot just seems to follow the other, drawn by the appeal of what lies beyond. Nepal's population of around 27.5 million people is a blend of Hindu, Buddhism and animist religion. Nepal is a mosaic of cultures, ethnic groups and languages. It is remarkable that in a country of this size there are over 123 different ethnic groups, with at least as many languages. One million people live in the Kathmandu Valley, but at least ninety percent of the population live in the rural areas of the lower and middle hills of the Himalayan Range. Nepal is predominantly a simple rural society and a trek in the foothills of the Himalaya is a strong cultural experience as we spend time with our crew and meet local village people.

democratic republic of nepal

On the 28th May 2008, the constituent assembly voted in overwhelming favour of abolishing the Monarchy in Nepal. Nepal has been proclaimed a "Federal Republic State" to be known as the "Democratic Republic of Nepal". This historic development followed the first elections held since 1999 after a ceasefire agreement between the government and the Maoists was signed in November 2006, putting an end to 10 years of instability in the Kingdom. The Maoist party won the largest share of votes in the elections at approx. 35%, and now form the largest part of the constituent assembly. The announcement of the abolishment of the Monarchy also brought an end to 240 years of Royal rule in the country. Today the general feeling amongst Nepalis is a positive one, and many believe that Nepal is now finally moving forward with a new identity as a democratic nation and a fresh outlook. Following the 2013 election the dominant party is now Nepali Congress with 34% followed by Communist Party of Nepal (Unified Marxist-Leninist) with 30%.

climate

Our trekking season in Nepal extends from mid-September to May. However within this period there are clear seasons in the weather. Trekking in Nepal during winter, from December to February, offers cool to mild and clear days with often very cold nights. Occasionally winter storms can bring snow as low as 2500m. In March the cold, dry winter season begins to give way to warmer, spring conditions. Mornings are usually clear with cloud build-up occasionally bringing afternoon rain. Late spring conditions, in May, are generally hot at low elevations and as the clouds build up to the next monsoon which generally begins in June, daily afternoon rainstorms are common. This is a period that generally has clear weather at the higher altitudes

everest family trek - private comfort camps

A short trek in the Everest region suitable for families

and is traditionally a time when mountaineering expeditions commence their ascents. The monsoon creates a rainy season in Nepal, which lasts from mid-June to mid-September. During this time the Nepal Himalaya is unsuitable for trekking, with the exception of a few remote valleys. World Expeditions offers treks during this period in Tibet, the Indian Himalayan regions of Kulu, Garhwal & Ladakh, Central Asia and Pakistan, places that are at their best during this time.

The post-monsoon period - From early September the monsoon rain starts to decrease. By mid-October through to mid-December the weather is usually stable with mild to warm days, cold nights and clear views. Daytime temperatures can reach 25 - 30 degrees Celsius at lower altitudes and decrease as you gain height. Over 3000 meters the daytime temperatures can vary as much as 10 to 20 degrees Celsius, and may be hotter or colder, depending on whether it is sunny or windy etc. At night at lower altitudes, temperatures do not normally drop much, although as you approach November it does get colder and the days shorter. Up high it can drop sharply at night, from 0 to minus 10 or 15 and more when camped on the ice or snow.

The pre-monsoon period - In March the cold, dry winter season begins to give way to warmer, wetter spring conditions. Mornings are usually clear with cloud build-up bringing occasional afternoon rainstorms. Views of the mountains in the middle of the day and afternoon may often be obscured. Daytime temperatures increase quickly in March with temperatures of up to 30 degrees Celsius and mild nights. At higher altitudes it is similar to the conditions of the post-monsoon period, however there is usually more snow, which has accumulated over the winter period. There are spectacular displays of rhododendrons and wildflowers at this time of year. Late spring conditions ie April and May, are generally hot at low elevations and as the clouds build up to the next monsoon, daily afternoon rainstorms are common.

meals on trek

Unlike most companies, World Expeditions includes a full meal service as part of the trip price. We believe in the value of providing you with a full service trek which is to lower the risks to you and to ensure you stay healthy, travel safely and with maximum enjoyment. The cost of meals in tea houses and lodges in the main trekking areas is not cheap, the choices are often limited and a lot of the food is fried. By joining one of our camping treks you'll have a full time personal cook and assistant on hand to prepare a creative menu using almost all fresh ingredients and carefully managing the food preparation and hygiene standards that would otherwise cost you \$45 a day or more. Many of our trekkers write to us to compliment the food they received on trek which is testimony to the quality of our fully serviced treks.

Dinner

Creamed corn soup, steamed vegetables, steamed rice, fried chicken, daal, spaghetti, chocolate cake, fresh apples, tea, coffee or hot chocolate, boiled water

mountain flights

Twin Otter aircraft is the usual mode of transport to and from Lukla. This service is fairly dependable, however in case the flights are cancelled due to mountain weather conditions, World Expeditions will charter a helicopter to ensure you are on schedule for your international flight connections. The helicopters can fly if the visibility is 1500m, while the Twin Otter can fly if the visibility is 5000m as per the Civil Aviation Rules. The cost of the helicopter is payable directly to our Kathmandu office in the event that this service is utilised. US cash or credit cards (Visa, Mastercard & American Express only) are accepted. You will be given a receipt upon

payment so that you may claim the amount from your travel insurance. The minimum cost will be US\$350 and maximum US\$650 depending on the number of group members. The maximum allowance for checked luggage on these flights is 15kg per person and 5kg for hand luggage. These limits are strictly adhered to so please pack carefully. Please note that approx 5.5kgs of this weight will be taken up by the sleeping bag (2.5kg), down jacket (1.5kg), kit bag (1kg) and sleeping bag liner (0.5kg) that you are provided.

contingency itinerary for flight delays

We aim to ensure the continuity of travel in the event of flight cancellations or adverse weather conditions. If flights from Ramechhap are delayed, we will attempt to fly the following day. If unsuccessful, a contingency itinerary will be put into place to ensure you are able to achieve the key goals of the trip, without compromising on acclimatisation. Your leader will brief you on the revised itinerary if it is necessary to put it into place. There is no additional cost associated with the itinerary change as the cost for the flights will be utilised towards the vehicles required to fulfil the new arrangements. In brief, the day to day itinerary will be as follows:

DAY 1: Arrive Kathmandu DAY 2: Drive to Ramechhap DAY 3: In Ramechhap, attempting to fly. DAY 4: If no flight possible by 12 pm, drive to Phaplu (approx 6-7hrs), overnight lodge DAY 5: Drive to Bhupsa (7-8hrs) and trek to Paiyan walk 2-3 hours, DAY 6 To Ghat, walk approx. 7-8hrs Day 7 To Namche DAY 8 To Kyanjuma Day 9 To Pangboche Day 10 To Mingmo Day 11 To Phortse Day 12 To Monjo Day 13 To Lukla Day 14 Fly to Kathmandu Day 15 Trip concludes in Kathmandu

With this said, we have an extremely high level of our treks that operate as normal.

a typical day

Each morning begins with a wake-up cup of tea brought to you around 6:30 am, followed by a small bowl of warm water for washing. Before breakfast you pack your gear into your kit bag, which is carried by our porters or pack animals and won't be back with you until you reach that night's camp or lodge.

After a wholesome breakfast we are usually on the trail between 7:30 and 8:00 am, depending on the day's distance and terrain. The morning walk runs around three to four hours before we break for about an hour for lunch, at a spot our crew has chosen ahead of us. The afternoon walk is generally shorter, and we aim to arrive between 3:30 and 4:30 pm.

Afternoon tea is ready soon after you arrive, leaving time to rest or explore before dinner, usually served between 6:00 and 7:00 pm. Bring your headlamp and water bottles with you to the dining area so the bottles can be filled with boiling water for the night.

On the nights you are at one of our private eco comfort camps, dinner is served in a heated dining room with cushioned seating. After a long day at altitude, a warm place to sit and eat with the group makes a real difference.

Evenings on the trek are a special part of the journey. Whether it is playing cards, sharing stories, or music and dancing with the local crew, these are the moments most travellers remember long after the walking is done.

exclusive eco-comfort camps

The Everest area is a built up region. It's the homeland of the Sherpa people and the highest mountains on earth. As a result, it is Nepal's most popular tourism region for trekkers. Over time, villages in the area have grown with scores of lodges, restaurants and trekking equipment shops. We have observed many companies change over from camping to lodge/tea house trekking with these developments. These accommodations are reliant on wood from the region for heating, cooking and to generate warm showers. Some have solar technologies which are crude and not consistently functional as they rely on fine weather conditions. World Expeditions has always argued that lodge/tea house trekking is therefore a drain on a natural resource which is becoming increasingly scarce. We cannot consciously contribute to this problem which

everest family trek - private comfort camps

A short trek in the Everest region suitable for families

is now termed as a deforestation crisis. Our exclusive eco-comfort camps provide innumerable benefits. Firstly, we are able to continue our philosophy of offering camping treks which is the most sustainable type of trekking, whilst offering a greater level of comfort as a result of the construction of a permanent dining room structure which will replace the traditional mess tent. Meals will be taken in the dining rooms, and at the end of the trekking day, you may relax with cushioned seating and a pot belly stove that is fuelled by yak dung and not wood, to warm the room. There are no smoke emissions in the room as the chimney carries it outside. An ablution block comprising of several toilets with composting western sit toilets and hand basins are also installed in our camps. Our exclusive eco-comfort camps create an atmosphere of privacy and exclusivity and come with fine views of the mountains - a place where our travellers and staff come together, and where camaraderie and friendships are formed. We know this to be a highlight of our camping treks and consistently receive feedback that overwhelmingly supports this. Finally, our camping treks employ many local people – a workforce of up to 25% more than a lodge trek provides.

Hot shower facilities are available at some locations in the Everest region. These locations are: Ghat, Namche, Deboche, Dingboche, Lobuche, Dole, Machhermo and Gokyo. There will be a small charge of between 300-650rps to utilise this service, and it is subject to availability. Most, but not all, World Expeditions trips in the Everest region visit one of more of these locations.

wilderness camps

Our wilderness campsites function without any permanent infrastructure. These are traditional expedition style camps which are set up when we arrive. These camps consist of a mess tent, kitchen tent, toilet tent and two person tents for sleeping. These sites have been handpicked for their scenic locations and permanent structures are not permitted under the national park rules.

eco lodges

In areas where there are no suitable campsites we chose to stay in carefully selected eco lodges. We have selected these lodges with our responsible tourism practices in mind and they use a mix of cow/yak dung/solar and generators for power. Our cooks will prepare all your meals, which means that we are able to maintain a high level of hygiene and a varied menu.

dietary requirements

Provided we are advised in advance of your departure we are able to cater for vegetarian diets and can assist with medically recommended diets (allergies and intolerances). Please ensure you discuss your requirements with us well in advance (at least 1 month prior to your trip) to determine whether we can cater to such dietary requirements on your chosen adventure. Please note that options are likely to be limited in very remote locations or alternatives may be more expensive or unavailable. There may be times when those with special requirements may need to provide their own food. We are unable to guarantee a peanut-free or allergen-free trip, and therefore, we strongly encourage that travellers with life-threatening or severe allergies take all necessary medical precautions to prepare for the possibility of exposure. Passengers must travel with all necessary medications for food allergies and be capable of self-administering these medications.

acute mountain sickness

When we ascend above 2500 metres our bodies have to acclimatise to the decreasing amount of the oxygen available. To allow our bodies to adjust we have structured our treks so that you ascend slowly, allowing acclimatisation to occur. However, during the acclimatisation process, you may experience some of the following symptoms.

- Headache
- Tiredness
- Disturbed sleep
- Loss of appetite/nausea
- Shortness of breath
- Cough
- Palpitation
- Swelling of the hands and face

Individuals acclimatise at different rates. Your best strategy is to take your time and drink plenty of water. These symptoms may not indicate the onset of A.M.S. and if you experience them it does not necessarily mean that you should not continue. All our group leaders have extensive first aid training and we urge you to communicate with the group leader at all times should you believe you have any symptoms in order that we can effectively monitor your symptoms. The only cure for Acute Mountain Sickness is to descend.

Please note that your group leader has ultimate responsibility and may ask you to descend if symptoms persist.

porter initiatives

Porter Welfare in Nepal: the Himalaya

Porters are an integral part of the World Expeditions philosophy and style of travel. We take our travellers off-the-beaten track, avoiding the congested trails, to experience our often remote tent-based adventures ... this style of trekking is enabled by porters. When we trek, the entire group - travellers, guides and porters alike - are a team who share the same needs for safety in the mountain environment. Our Himalaya porters receive the following:

*A good working wage that is regulated by the Trekking Agents Association of Nepal and the Labour Union of Nepal. We pay per their guidelines, which are unionised.

*We are one of the only trekking companies in Nepal to provide our porters with three meals a day, prepared by our cooks.

*Porters also receive life insurance and income protection insurance.

*Access to same first aid care that our travellers receive including emergency helicopter evacuation if required.

*Porters are provided with wind and waterproof jacket and over-trousers, 2 pairs of woollen socks, 2 pair of leather shoes on long treks and 2 pairs of canvas shoes while on short treks, woollen gloves, warm cap, sunglasses, mattress and blanket and tent / lodge.

*Porters are not to carry more than 30kgs.

*The minimum age for a Porter is 16 and the maximum age is 50 years old.

World Expeditions supports the good work of a number of international organisations that operate to ensure the health and education of porters, they are:

International Mountain Explorers Connection >> www.mountainexplorers.org

Kilimanjaro Guide Scholarship Foundation Inc. >> www.kiliguides.org

vehicles & safety

During the course of your trip, we will use a variety of vehicles, all of which are fit for purpose and the conditions encountered. It should be noted that laws governing transportation safety may differ from those in your home country and whilst wherever possible, vehicles with seatbelts are provided, on occasion some vehicles may not have seat belts fitted.

visas

Nepal Visa Information

All nationalities require a visa to enter Nepal. For most travellers, a multiple-entry tourist visa can be obtained on arrival at Tribhuvan International Airport (Kathmandu).

To make your arrival as smooth as possible and avoid long queues at the airport, World Expeditions strongly recommends completing the online visa application before you travel.

Option 1: Complete Your Visa Application Before Departure (Recommended)

The easiest and fastest option is to complete your visa application online before arriving in Nepal.

Online Visa Application Portal:

[\[https://nepaliport.immigration.gov.np/\]\(https://nepaliport.immigration.gov.np/\)](https://nepaliport.immigration.gov.np/)

Important

Applications can only be submitted within 14 days of your arrival date

The barcode confirmation generated by the system is valid for 15 days. If your travel dates change and you arrive more than 15 days after completing the form, you will need to submit a new application.

How to Apply

1. Visit the Nepal Immigration Portal above.
2. Select "Visa on Arrival".
3. Choose Tribhuvan International Airport (TIA) as your point of entry if you are flying into Kathmandu.
4. Complete and submit the application.
5. Print or save the barcode confirmation receipt.

What to Bring

A short trek in the Everest region suitable for families

- * Passport valid for at least 6 months from your arrival date

Option 2: Apply for Your Visa on Arrival

If you have not completed the online application before departure, you can still obtain your visa upon arrival at Tribhuvan International Airport.

On Arrival

1. Proceed to one of the visa application kiosks in the arrivals hall.
2. Complete the electronic visa application form.
3. Print the confirmation receipt if available, or take a clear photo or screenshot of the confirmation page.
4. Proceed to the visa payment counter.
5. Present your application confirmation, payment receipt, passport and passport photographs at Immigration.

Please note that queues can be lengthy during busy periods, which is why completing the online application before departure is recommended.

Visa Fees

Current tourist visa fees are:

15 Days - US\$30

30 Days - US\$50

90 Days - US\$125

Payment Information

USD cash is strongly recommended. AUD, CAD and GBP are generally accepted at the exchange rate of the day. Bringing the exact amount in US dollars will help speed up processing and avoid delays

Important Requirements

Before travelling, please ensure you have:

- A passport valid for at least 6 months from your date of arrival
- 4 x passport-sized photographs
- A printed or saved copy of your visa application confirmation (if applying online)
- Sufficient funds to pay the visa fee on arrival

Visa Validity

Once issued, your Nepal tourist visa must be activated by entering Nepal within 6 months of the date of issue.

As visa regulations can change without notice, travellers should always check the latest requirements with Nepal Immigration prior to departure.

World Expeditions Recommendation: Complete the online visa application before departure and bring a printed copy of the barcode confirmation. This is the simplest way to minimise waiting times and ensure a smooth arrival into Nepal.

Please bear in mind that visas may be required for countries you are visiting en route or transiting through on the way to your destination. It is important that you check the requirements of all countries you will visit. Visa costs and requirements do change regularly so we suggest you check with your travel agent or World Expeditions reservations consultant. It is your responsibility to obtain all necessary visas.
